Independent Auditors' Report

Board of Directors
Flamingo Isles Municipal Utility District of Galveston County
Galveston County, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of Flamingo Isles Municipal Utility District of Galveston County, as of and for the year ended March 31, 2015, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient to provide a basis for our audit opinions.

***Board of Directors
Flamingo Isles Municipal Utility District of Galveston County
Galveston County, Texas***

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Flamingo Isles Municipal Utility District of Galveston County, as of March 31, 2015, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other-Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements as a whole. The Texas Supplementary Information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Texas Supplementary Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied to the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Management's Discussion and Analysis
March 31, 2015***

Using this Annual Report

Within this section of the financial report of Flamingo Isles Municipal Utility District of Galveston County (the "District"), the District's Board of Directors provides a narrative discussion and analysis of the financial activities of the District for the fiscal year ended March 31, 2015. This analysis should be read in conjunction with the independent auditors' report and the basic financial statements that follow this section.

In addition to this discussion and analysis, this annual report consists of:

- The District's basic financial statements;
- Notes to the basic financial statements, which provide additional information essential to a full understanding of the data provided in the financial statements;
- Supplementary information required by the Governmental Accounting Standards Board (GASB) concerning the District's budget; and
- Other Texas supplementary information required by the District's state oversight agency, the Texas Commission on Environmental Quality (TCEQ).

Overview of the Financial Statements

The District prepares its basic financial statements using a format that combines fund financial statements and government-wide statements onto one financial statement. The combined statements are the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances*. Each statement contains an adjustments column which quantifies the differences between the government-wide and fund level statements. Additional details of the adjustments are provided in Note 2 to the basic financial statements.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District, both long-term and short-term. The District's government-wide financial statements consist of the *Statement of Net Position* and the *Statement of Activities*, which are prepared using the accrual basis of accounting. The *Statement of Net Position* includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual reported as net position. Over time, changes in net position may provide a useful indicator of whether the financial position of the District as a whole is improving or deteriorating.

Accounting standards establish three components of net position. The net investment in capital assets component represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets. Resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The restricted component of net position consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties. The unrestricted component of net position represents resources not included in the other components.

***Flamingo Isles Municipal Utility District of Galveston County
Management's Discussion and Analysis
March 31, 2015***

The *Statement of Activities* reports how the District's net position has changed during the fiscal year. All revenues and expenses are included on this statement, regardless of whether cash has been received or paid.

Fund Financial Statements

The fund financial statements include the *Governmental Funds Balance Sheet* and the *Governmental Funds Revenues, Expenditures and Changes in Fund Balances*. The focus of fund financial statements is on specific activities of the District rather than the District as a whole, reported using modified accrual accounting. These statements report on the District's use of available financial resources and the balances of available financial resources at the end of the year. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties, governmental statutes or regulations.

For further discussion on the government-wide and fund financial statements, please refer to Note 1 in the financial statements.

Financial Analysis of the District as a Whole

The District's net position at March 31, 2015, was negative \$7,341,999. The District's net position is negative because the District incurs debt to construct water, sewer and drainage facilities which it conveys to the City of Hitchcock. A comparative summary of the District's overall financial position, as of March 31, 2015 and 2014, is as follows:

| | 2015 | 2014 |
|----------------------------------|-----------------------|-----------------------|

Financial Analysis of the District's Funds

The District's combined fund balances, as of March 31, 2015, were \$947,566, which consists of \$340,830 in the General Fund and \$606,736 in the Debt Service Fund.

General Fund

Comparative summaries of the General Fund's financial position as of March 31, 2015 and 2014 and activities for the current and prior fiscal year are as follows:

| | <u>2015</u> | <u>2014</u> |
|------------------------------------------------------|--------------------------|--------------------------|
| Total Assets | <u>\$ 372,784</u> | <u>\$ 314,734</u> |

***Flamingo Isles Municipal Utility District of Galveston County
Management's Discussion and Analysis
March 31, 2015***

The District manages its activities with the objectives of ensuring that expenditures will be adequately covered by revenues each year and that an adequate fund balance is maintained. As a result, fund balance in the General Fund for the current year and prior year has increased.

Debt Service Fund

Comparative summaries of the financial position as of March 31, 2015 and 2014 and activities of the Debt Service Fund for the current and prior fiscal year are as follows:

| | | |
|------------------------------------------------------|--------------------|--------------------|
| Total Assets | <u>\$ 618,327</u> | <u>\$ 655,672</u> |
| Total liabilities | \$ 1,444 | \$ 1,426 |
| Total deferred inflows | 10,147 | 12,866 |
| Total fund balance | 606,736 | 641,380 |
| Total liabilities, deferred inflows and fund balance | <u>\$ 618,327</u> | <u>\$ 655,672</u> |
| | | |
| Total revenues | \$ 307,969 | \$ 260,180 |
| Total expenditures | (342,613) | (343,508) |
| Revenues under expenditures | <u>\$ (34,644)</u> | <u>\$ (83,328)</u> |

The District's financial resources in the Debt Service fund in both the current year and prior year are from property tax revenues. The difference between these financial resources and debt service requirements will result in changes in fund balance each year. It is important to note that the District sets its annual debt service tax rate as recommended by its financial advisor, who monitors projected cash flows in the Debt Service Fund to ensure that the District will be able to meet its future debt service requirements.

General Fund Budgetary Highlights

The Board of Directors adopts an annual unappropriated budget for the General Fund prior to the beginning of each fiscal year. The Board did not amend the budget during the fiscal year.

Since the District's budget is primarily a planning tool, actual results varied from the budgeted amounts. Actual net change in fund balance was \$13,030 greater than budgeted. The *Budgetary Comparison Schedule* on page 28 of this report provides variance information per financial statement line item.

Capital Assets

Capital assets held by the District at March 31, 2015 and 2014 are summarized as follows:

| | <u>2015</u> | <u>2014</u> |
|----------------------------------|-----------------------------|-----------------------------|
| Capital assets being depreciated | | |
| Infrastructure | \$ 19,497,080 | \$ 19,497,080 |
| Less accumulated depreciation | <u>(4,250,910)</u> | <u>(3,817,642)</u> |
| Capital assets, net | <u><u>\$ 15,246,170</u></u> | <u><u>\$ 15,679,438</u></u> |

Long-Term Debt

At March 31, 2015 and 2014, the District had total bonded debt outstanding as shown below:

| <u>Series</u> | <u>2015</u> | <u>2014</u> |
|---------------|----------------------------|----------------------------|
| 2007 | <u><u>\$ 3,990,000</u></u> | <u><u>\$ 4,100,000</u></u> |

Next Year's Budget

In establishing the budget for the next fiscal year, the Board considered various economic factors that may affect the District, most notably projected revenues from property taxes and the projected cost of operating the District. A comparison of next year's budget to current year actual amounts for the General Fund is as follows:

| | <u>2015 Actual</u> | <u>2016 Budget</u> |
|------------------------------------|--------------------------|--------------------------|
| Total revenues | \$ 177,687 | \$ 169,036 |

Flamingo Isles Municipal Utility District of Galveston County
Notes to Basic Financial Statements
March 31, 2015

Note 1 – Summary of Significant Accounting Policies

The accounting policies of Flamingo Isles Municipal Utility District of Galveston County (the “District”) conform with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board. The following is a summary of the most significant policies:

Creation

The District was organized, created and established pursuant to a statute enacted by the Texas Legislature, effective June 17, 1965, and operates in accordance with its enabling legislation and the Texas Water Code, Chapters 49 and 51. The District became dormant for a number of years. On January 21, 2003, the Texas Commission on Environmental Quality (the “TCEQ”) appointed five directors to the District and the District was reactivated. The Board of Directors held its first meeting on February 13, 2003 and the first bonds were sold on June 26, 2007.

The District is responsible for providing water and sewer facilities within the District, reclaiming land and providing for drainage of land within the District and providing for navigation of its coastal and inland waters through the construction and maintenance of bulkheading and the dredging for canals and channels. The water and sewer facilities constructed by the District are conveyed to the City of Hitchcock for maintenance and operation. The District has with various consultants to provide services to operate and administer the affairs of the District. The District has no employees, related payroll or pension costs.

Reporting Entity

The District is a political subdivision of the State of Texas governed by an elected five-member board. The Governmental Accounting Standards Board has established the criteria for determining whether or not an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body; it is legally separate; and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District’s financial statements as component units.

Government-Wide and Fund Financial Statements

Government-wide financial statements display information about the District as a whole. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Interfund activity, if any, has been removed from these statements. These aggregated statements consist of the *Statement of Net Position* and the *Statement of Activities*.

Note 1 – Summary of Significant Accounting Policies (continued)

Government-Wide and Fund Financial Statements (continued)

Fund financial statements display information at the individual fund level. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for a specific purpose. Each fund is considered to be a separate accounting entity. Most governments typically have many funds; however, governmental financial statements focus on the most important or “major” funds with non-major funds aggregated in a single column. The District has two governmental funds, which are all considered major funds.

The following is a description of the various funds used by the District:

- The General Fund is used to account for the operations of the District and all other financial transactions not reported in other funds. The principal source of revenue is property taxes. Expenditures include costs associated with the daily operations of the District.
- The Debt Service Fund is used to account for the payment of interest and principal on the District’s general long-term debt. The primary source of revenue for debt service is property taxes. Expenditures include costs incurred in assessing and collecting these taxes.

As a special-purpose government engaged in a single governmental program, the District has opted to combine its government-wide and fund financial statements in a columnar format showing an adjustments column for reconciling items between the two.

Measurement Focus and Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized in the accounting period in which it becomes both available and measurable to finance expenditures of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Revenues susceptible to accrual include property taxes and interest earned on investments. Property taxes receivable at the end of the fiscal year are treated as deferred inflows because they are not considered available to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

Note 2 further details the adjustments from the governmental fund presentation to the government-wide presentation.

Note 1 – Summary of Significant Accounting Policies (continued)

Use of Restricted Resources

When both restricted and unrestricted resources are available for use, the District uses restricted resources first, then unrestricted resources as they are needed.

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. At March 31, 2015, an allowance for uncollectible accounts was not considered necessary.

Interfund Activity

During the course of operations, transactions occur between individual funds. This can include internal transfers, payables and receivables. This activity is combined as internal balances and is eliminated in both the government-wide and fund financial statement presentation.

Capital Assets

Capital assets, which primarily consist of bulkheads, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial cost of \$5,000 or more and an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at the estimated fair market value at the date of donation. The District has not capitalized interest incurred during the construction of its capital assets. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Infrastructure is depreciated using the straight-line method over 45 years.

Deferred Inflows and Outflows of Financial Resources

A deferred inflow of financial resources is the acquisition of resources in one period that is applicable to a future period, while a deferred outflow of financial resources is the consumption of financial resources in one period that is applicable to a future period. A deferred inflow results from the acquisition of an asset without a corresponding revenue or assumption of a liability. A deferred outflow results from the use of an asset without a corresponding expenditure or reduction of a liability.

At the fund level, property taxes receivable not collected within 60 days of fiscal year end do not meet the availability criteria required for revenue recognition and are recorded as deferred inflows of financial resources.

Note 1 – Summary of Significant Accounting Policies (continued)

Fund Balances – Governmental Funds

Governmental accounting standards establish the following fund balance classifications:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District does not have any nonspendable fund balances.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments. The District's restricted fund balance consists of property taxes levied for debt service in the Debt Service Fund.

Committed - amounts that can be used only for specific purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District does not have any committed fund balances.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned - all other spendable amounts in the General Fund.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses/expenditures during the period reported. These estimates include, among others, the collectability of receivables; the useful lives and impairment of capital assets; the value of amounts due to developers; and the value of capital assets for which the developers have not been fully reimbursed. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

Note 3 – Deposits and Investments

Deposit Custodial Credit Risk

Custodial credit risk as it applies to deposits (i.e. cash and certificates of deposit) is the risk that, in the event of the failure of the depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities. The *Public Funds Collateral Act* (Chapter 2257, Texas Government Code) requires that all of the District’s deposits with financial institutions be covered by federal depository insurance and, if necessary, pledged collateral held by a third party custodian. The act further specifies the types of securities that can be used as collateral. The District’s written investment policy establishes additional requirements for collateralization of deposits.

Note 3 – Deposits and Investments (continued)

Investments

The District is authorized by the *Public Funds Investment Act* (Chapter 2256, Texas Government Code) to invest in the following: (1) obligations of the United States or its agencies and instrumentalities, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies or instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states and political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) insured or collateralized certificates of deposit, (8) certain fully collateralized repurchase agreements, (9) bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds, with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

The District has adopted a written investment policy to establish the principles by which the District's investment program should be managed. This policy further restricts the types of investments in which the District may invest.

As of March 31, 2015, the District's investments consist of the following:

| Type | Fund | Carrying Value |
|-------------------------|--------------|-------------------|
| Certificates of deposit | General | \$ 245,000 |
| | Debt Service | 385,000 |
| Total | | <u>\$ 630,000</u> |

The District's investments in certificates of deposit are stated at cost, which approximates fair value.

Note 4 – Amounts Due to/from Other Funds

Amounts due to/from other funds at March 31, 2015, consist of the following:

| | Interfund | |
|-------------------|-----------------|-----------------|
| | Receivable | Payable |
| General Fund | \$ 8,046 | \$ - |
| Debt Service Fund | | 8,046 |
| | <u>\$ 8,046</u> | <u>\$ 8,046</u> |

Amounts reported as due to/from between funds are considered temporary loans needed for normal operations and will be repaid during the following fiscal year.

| Capital assets, net | <u>\$ 15,679,438</u> | <u>\$ (433,268)</u> | <u>\$ 15,246,170</u> |

Depreciation expense for the current year was \$433,268.

Note 6 – Due to Developers

The District has entered into financing agreements with its developers for the financing of the construction of water, sewer and drainage facilities. Under the agreements, the developers will advance funds for the construction of facilities to serve the District. The developers will be reimbursed from proceeds of future bond issues or other lawfully available funds, subject to approval by TCEQ. The District does not record the capital asset and related liability on the government wide statements until construction of the facilities is complete.

The amount due to developer at March 31, 2015 is \$19,634,646. There was no change in this liability from the prior year.

Note 7 – Long-Term Debt

Long-term debt is comprised of the following:

| | |
|-----------------------|---------------------|
| Bonds payable | \$ 3,990,000 |
| Unamortized discounts | (96,451) |
| | <u>\$ 3,893,549</u> |
| Due within one year | <u>\$ 120,000</u> |

The District's bonds payable at March 31, 2015, consists of unlimited tax bonds as follows:

| Series | Amounts Outstanding | Original Issue | Interest Rates | Maturity Date, Serially, Beginning/ Ending | Interest Payment Dates | Call Date |
|--------|------------------------|-------------------|-------------------|-----------------------------------------------------|------------------------------|------------------|
| 2007 | \$ 3,990,000 | \$ 4,490,000 | 5.2% to 5.5% | March 1, 2011/2035 | September 1, March 1 | March 1, 2015 |

Notes to Basic Financial Statements
March 31, 2015

Note 7 – Long-Term Debt (continued)

Payments of principal and interest on all series of bonds are to be provided from taxes levied on all properties within the District. Investment income realized by the Debt Service Fund from investment of idle funds will be used to pay outstanding bond principal and interest. The District is in compliance with the terms of its bond resolutions.

At March 31, 2015, the District had authorized but unissued bonds in the amount of \$52,070,000 for water and sanitary sewer facilities; the reclamation and drainage of land; and providing for navigation of canals within the District.

The change in the District’s long term debt during the year is as follows:

| | | |
|----------------------------------|-----------|------------------|
| Bonds payable, beginning of year | \$ | 4,100,000 |
| Bonds retired | | (110,000) |
| Bonds payable, end of year | <u>\$</u> | <u>3,990,000</u> |

As of March 31, 2015, annual debt service requirements on bonds outstanding are as follows:

| Year | Principal | Interest | Totals |
|------|---------------------|---------------------|---------------------|
| 2016 | \$ 120,000 | \$ 214,830 | \$ 334,830 |

Note 8 – Property Taxes

On December 2, 2004, the voters of the District authorized the District’s Board of Directors to levy taxes annually for use in financing general operations limited to \$2.00 per \$100 of assessed value. The District’s bond resolutions require that property taxes be levied for use in paying interest and principal on long-term debt and for use in paying the cost of assessing and collecting taxes. Taxes levied to finance debt service requirements on long-term debt are without limitation as to rate or amount.

All property values and exempt status, if any, are determined by the Galveston Central Appraisal District. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

Property taxes are collected based on rates adopted in the year of the levy. The District’s 2015 fiscal year was financed through the 2014 tax levy, pursuant to which the District levied property taxes of \$0.60 per \$100 of assessed value, of which \$0.2225 was allocated to maintenance and operations and \$0.3775 was allocated to debt service. The resulting tax levy was \$463,145 on the adjusted taxable value of \$77,181,033.

Net property taxes receivable, at March 31, 2015, consisted of the following:

| | | |
|---------------------------------|----|--------|
| Current year taxes receivable | \$ | 90,592 |
| Prior years taxes receivable | | 156 |
| | | 90,748 |
| Penalty and interest receivable | | 8,186 |
| Net property taxes receivable | \$ | 98,934 |

Note 9 – Agreement with the City of Hitchcock

On February 1, 2005, the District entered into an agreement with the City of Hitchcock (the “City”) for the term of ninety-nine years. Pursuant to the agreement, the District’s developer will finance the construction of water and sewer system facilities to serve the District. Portions of the costs of constructing these facilities will be reimbursed to the developer by Reinvestment Zone One, City of Hitchcock, Texas (the “Zone”) and by the District. The District has agreed to reimburse a developer from the proceeds of bonds to be issued for certain eligible project costs associated with the construction of the facilities. The Zone will reimburse the developer from tax proceeds arising from taxation within the Zone. The facilities will be conveyed to the City at no cost to the City. Upon the City’s acceptance of each segment of the expansion of the facilities, the water and sewer facilities will be owned and operated by the City as part of the City’s water and sewer system. The City will charge its customary water and sewer rates to users within the District who will be customers of the City.

Note 9 – Agreement with the City of Hitchcock (continued)

The developer advanced funds on behalf of the Zone and the District to dredge channels and build bulkheads on the channels. The District has agreed to accept each segment of bulkhead as it is completed and to maintain the bulkhead that is completed by the developer. The District levies a property tax to pay debt service on its bonds and to pay maintenance and operating expenses, including bulkhead maintenance.

To the extent that the City has the legal authority to do so, the City consents to the organization and operation of the District as it is currently constituted and agrees that it will not take any action to dissolve the District during the term of the agreement.

Note 10 – Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; and personal injuries. The risk of loss is covered by commercial insurance. There have been no significant reductions in insurance coverage from the prior year. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.
